Instructions for use

AS A CLEANING, DAMP PROOFING AGENT:

Apply the product by spraying or brushing the surfaces to be cleaned, leave to work for a period of time ranging from 30 minutes to one hour; then remove the product with a sponge and rinse with water. In the case of particularly resistant concretions, repeat the operations described until their complete elimination.

AS WOOD RENEWER:

For surface cleaning, for example, before repainting, apply the product until rejection on soiled and/or blackened parts, with a sprayer or a brush. Remove the product after a few minutes with a damp sponge or brush with water. For a deeper treatment, to renew the original natural appearance of wood, leave the product to work for at least 12 hours. Then proceed with the removal of fouling with a brush and water and, after drying, proceed with the protective repainting with appropriate flatting or with transparent paints.

Storage and preservation

Protect from freezing. Store the product in its original packing, in a fresh and dry environment, avoiding frost and direct sunlight. Inadequate storage of the product may result in a loss of rheological performance. Store the product at a temperature between +5°C and +35°C.

Warnings, Precautions and Ecology

The general information, along with any instructions and recommendations for use of this product, including in this data sheet and eventually provided verbally or in writing, correspond to the present state of our scientific and practical knowledge.

Any technical and performance data reported is the result of laboratory tests conducted in a controlled environment and thus may be subject to modification in relation to the actual conditions of implementation.

Azichem Srl does not assume any liability arising from inadequate characteristics related to improper use of the product or connected to defects arising from factors or elements unrelated to the quality of the product, including improper storage.

Those wishing to utilise the product are required to determine prior to use whether or not the same is suitable for the intended use, assuming all consequent responsibility.

The technical and characteristic details contained in this data sheet shall be updated periodically. For consultation in real time, please visit the website: www.azichem.com. The date of revision is indicated in the space to the side. The current edition cancels out and replaces any previous version.

Please note that the user is required to read the latest Safety Data Sheet for this product, containing chemical-physical and toxicological data, risk phrases and other information regarding the safe transport, use and disposal of the product and its packaging. For consultation, please visit: www.azichem.com.

It is forbidden to dispose of the product and/or packaging in the environment.
